Syllabus Highlights

Textbook
Our textbook is available for free online. Readings are linked directly from the course schedule.

Attendance
I will not take attendance, but you do need to participate in the course. If you can't be here you can still contribute to course topic discussions on Teams and work remotely with lab groups.

Communication
I will make class announcements on Teams rather than email, so please check in regularly or turn on notifications.
Syllabus Highlights

Graded Work
You'll complete assignments individually, labs and project in groups. There are no exams or quizzes, but we will use our final exam time.

Late Work
Assignments and project components cannot be turned in late. Labs can be submitted up to one week late with a 20% penalty.

Passing the Class
You must earn at least 70% on every lab to pass this course. While it may not improve your overall grade, you can resubmit labs to meet this requirement.
Learning & Expertise
NOT JUST 10,000 HOURS
Expertise Discussion

Discuss with your neighbor(s) and be prepared to share.

What are the four conditions required to become an expert?

What can we do to create these in this class?
Expertise Discussion *(responses)*

What are the four conditions required to become an expert?

What can we do to create these in this class?
What is an Operating System?
Wrap Up
Upcoming Work

Read the Syllabus

This is my contract with you for the course. Make sure you understand the course policies and what you are expected to do for the class.

Reading

If you haven't already done so, read the introduction to our textbook. You can find the reading linked on the schedule for today.
