Threads, Continued

CSC 213 – October 14, 2022
Agenda for Today

1. Department Events
2. Q&A
3. Lab/Demo Time
Department Events

GrinTech Exhibition    Saturday, October 29th 11am–4pm in Harris Concert Hall
       Go present something you've created.
       Or, go see what your peers have done (spend >40min for extra credit).
Assignment Questions

If we're supposed to have two or more threads counting different letters without taking turns, how do we do that?

Taking turns means acquiring and releasing the same lock. Threads that use different locks are not taking turns. So you could use multiple locks.

How do we use multiple locks?

You can make an array of pthread_mutex_ts.
